ISSUE 7

July

2009

WELCOME BACK, CONRAD!

After successfully beating off several other applicants, Conrad Butters has made a welcome return to Orchard Place. Conrad has joined Orchard Place Wood Workshop as a Technical Instructor. He brings to the job a wealth of experience and knowledge of both the work he will be doing, as well as how being a service user affects your day to day life. Conrad said "I'm very pleased to be back, and I'm looking forward to the challenge."

RECYCLING UPDATE

Please note that we are now only collecting ALUMINIUM CANS for recycling at Tesco, and NEWSPAPERS for making logs.

WATER COOLER

A new water cooler has been installed in the Assembly workshop. It is available for all to use. We just ask that you keep the same cup **EACH DAY**

PLUGGING THE GAP!

We are pleased to announce that we have a new supplier of work to the Assembly Workshop – Masefield-Epson of Tipton. They are suppliers of plumbers fitments to the trade.

Amongst other things, we will be assembling Plumbers kit boxes with various sized washers, and attaching the triangles to a lot of plugs! After months of speculation about the amount of work we will have once Haldex goes, we are pleased that we are doing our best to get in more varied work.
